

THE SCIENCE OF LEARNING DISTINCTION

Interested in What Makes for Successful Learning?

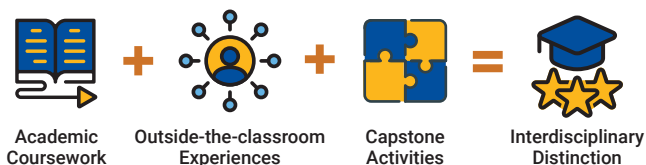

Take advantage of Pitt's powerful research environment by pursuing a cross-department transcript distinction in the science of learning. Complete course work that provides a multidisciplinary perspective on learning. Visit sites where research on learning takes place, such as schools, museums and neuroscience labs. Conduct high impact learning-related research activities.

Benefits of Earning the Science of Learning Distinction

- Develop critical research skills and understanding.
- Build experience presenting complex ideas to demanding audiences.
- Learn in a community of students who are similarly interested in how new ideas are formed and shaped in interdisciplinary domains.
- Earn a notation on your transcript affirming your interest, learning, and research in the learning sciences—**an important signal for some of the most sought after positions for employers and graduate schools.**

Enroll Now!

1. Log into my.pitt.edu and search or select the OCC task to access Suitable.
2. Search in the activities tab for the Science of Learning Distinction Declaration.
3. Complete the online form.
